Re Endorsement of IPOS International Quality Standard in Cancer Care
Our ref. CH/ap /12.031

Dear Professor Dunn:

I am pleased to confirm that the Dutch Cancer Society endorses the IPOS International Quality Standard of Cancer Care.

This Standard will be reflected in the policy and practice of the Dutch Cancer Society. Since improvement of quality and accessibility of psychosocial care is one of the focal points of our organization we will stress the importance of the Standard in relevant contacts in (psychosocial) oncology.

Yours Sincerely,

Michel T. Rudolphie Msc, MBA

Managing director
Dutch Cancer Society
