Re: IPOS International Standards of Quality Cancer Care

Amsterdam, 23 april 2013

Dear professors Bultz and Grassi,

I am pleased to inform you that the Dutch Society of Psychosocial Oncology (NVPO) fully endorses the IPOS Statement on Standard of Quality Cancer Care. NVPO's mission is that psychosocial care is integrated into comprehensive cancer care. To this end, the NVPO developed the Dutch guideline 'Detection of need for psychosocial care' ([www.oncoline.nl](http://www.oncoline.nl)) that underlines the standards of IPOS.

Yours sincerely,

Josette Hoekstra-Weebers, PhD  
President, Dutch Society of Psychosocial Oncology
