

Letter of endorsement

In 2010 the International Psycho-Oncology Society, IPOS, proposed a statement on Standards and Clinical Practice Guidelines in Cancer Care. It was agreed that:

1. Quality cancer care must integrate the psychosocial domain into routine care, and
2. Distress should be measured as the 6th Vital Sign after temperature, blood pressure, pulse, respiratory rate and pain.

The Swedish Psycho-Oncology Society hereby proclaims support of the Standards and Clinical Practice Guidelines in Cancer Care by endorsing the position statement of IPOS.

Lund 2013-03-19

On behalf of the Swedish Psycho-Oncology Society,

Maria Hellbom

Vice president
